

Responding to the needs of a person presenting with suicidal ideation

Continuing Professional Development Learning Record

Complete and save a copy of this form to create your own record of CPD you've undertaken or to further embed your learning. Please note, MHPN is unable to provide Statements of Attendance for viewing webinar recordings or listening to podcasts.

Your details

Your name:

Date completed:

Activity Name: Responding to the needs of a person presenting with suicidal ideation

Learning outcomes Watch this facilitated panel discussion, based on a case study, to be better equipped to:

- define the concept of risk and known factors associated with increased risks of suicide
- identify the needs of a person experiencing suicidal ideation, including assessment, risk formulation, safety planning and ongoing monitoring
- identify the importance of appropriate referrals and collaboration with other professionals when working with a person experiencing suicidal ideation

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
