

## Collaborative care for older people with mental health issues

### Continuing Professional Development Learning Record

Complete and save a copy of this form to create your own record of CPD you've undertaken or to further embed your learning. Please note, MHPN is unable to provide Statements of Attendance for viewing webinar recordings or listening to podcasts.

#### Your details

---

Your name:

---

Date completed:

---

Activity Name: Collaborative care for older people with mental health issues

---

Learning outcomes

- recognise the key issues in the assessment of older people experiencing possible mental illness
- recognise the key principles of intervention and the roles of different disciplines in treating, managing and supporting older people experiencing mental health issues as well as functional issues
- understand the merits, challenges and opportunities in providing collaborative care to older people with mental health issues.

---

Time spent engaged  
in the activity:

(including completing this form)

---

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
