Your details

Your name:

Date completed:

Activity Name: A Collaborative Approach to Cancer Survivorship and Mental Health

Learning outcomes By watching the webinar you will:

- develop a better understand the mental health indicators in the context of cancer survivorship
- be better able to identify the key principles of the featured disciplines' approach in screening, diagnosing, and supporting people who have survived cancer and may be experiencing depression and/or anxiety
- explore tips and strategies for interdisciplinary collaborative care for people who have survived cancer and may be experiencing depression and/or anxiety.

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
