Activity Name: A Collaborative Approach to Supporting People with Coronary Heart Disease and Depression

Learning outcomes Watch this facilitated panel discussion of Shelia's story be better equipped to:

- develop a better understanding of the mental health indicators in the context of coronary heart disease
- be better able to identify the key principles of the featured disciplines' approach in screening, diagnosing, and supporting Sheila
- explore tips and strategies for interdisciplinary collaboration to support people like Sheila.

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
