Activity Name: Culturally responsive mental health care during COVID-19 and beyond

Learning outcomes

- understand the compounding anxiety, grief, helplessness, trauma and shame people from CALD backgrounds may be experiencing during COVID 19 and beyond.
- utilise practical tips and strategies to provide culturally responsive practice which supports good outcomes for people from CALD backgrounds
- better target referrals, as a result of improved understanding of the role of different disciplines, in providing treatment and support for people from CALD backgrounds.

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:
 - Explore the topic further in a supervision session or with a peer/colleague
 - Identify and read the latest research
 - Undertake additional courses, study or training
 - Search MHPN's webinar or podcast libraries for more PD content
 - Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
