Activity Name: Collaborative Care, Anxiety and Worry in Adolescence

Learning outcomes Watch this facilitated panel discussion of Susan's story be better equipped to:

- understand anxiety and worry in the context of adolescence
- identify the key principles of the featured disciplines' approach in screening, diagnosing, and supporting adolescents experiencing anxiety and worry
- explore tips and strategies for interdisciplinary collaboration between practitioners managing cases like Susan.

Time spent engaged
in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
