

Suicide Prevention and Postvention: an interdisciplinary approach

Continuing Professional Development Learning Record

Complete and save a copy of this form to create your own record of CPD you've undertaken or to further embed your learning. Please note, MHPN is unable to provide Statements of Attendance for viewing webinar recordings or listening to podcasts.

Your details

Your name:

Date completed:

Activity Name: Suicide Prevention and Postvention: an interdisciplinary approach

Learning outcomes

- recognise and respond to mental health issues which may indicate risk factors for suicide
- support bereaved patients, communities and/or themselves when responding to a death by suicide
- implement tips and strategies to enhance communication and build capacity between practitioners who are treating people who may be at risk of suicide or who are responding to a death by suicide.

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
