Date completed:

Activity Name: Mental illness, terrorism and grievance-fuelled violence: understanding the nexus (Feb 2020)

Learning outcomes

- understand the non-causal link between mental illness, extremist ideology and abnormal fixation
- identify fixated behaviour, radicalisation to violent extremism and potential for grievance-fuelled violence
- have an awareness of the referral pathways and take appropriate steps if they are concerned that a patient may be radicalising to violence or on a pathway to grievance-fuelled violence.

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
