Activity Name: Supporting the Mental Health of Older People Living in the Community

Learning outcomes Watch this facilitated panel discussion of Eddie's story be better equipped to:

- recognise the key principles of the featured disciplines' approach in screening and assessing the mental health of older people living in the community
- understand how different practitioners can intervene to support older people living in the community, thereby improving mental health outcomes
- identify challenges to, and opportunities for collaboration that may emerge as practitioners from different disciplines work together to support Eddie.

Time spent engaged in the activity:

(including completing this form)

After watching or listening to the activity, consider the following:

1. What were three key messages that were covered in the activity?

2. Identify your learning goal and how the activity's content aligned with that goal.

3. What actions are you going to take to use the learnings to improve and/or change your practice? For example:

- Explore the topic further in a supervision session or with a peer/colleague
- Identify and read the latest research
- Undertake additional courses, study or training
- Search MHPN's webinar or podcast libraries for more PD content
- Join an MHPN network to connect with other practitioners for networking, peer support or PD

4. Please note any other reflections on the topic or activity.
