Mobile Apps

iMatter

The iMatter app has been developed to help young people understand the warning signs of abusive and controlling behaviour in relationships as well as promote healthy self-esteem. The aim is to build resilience, to educate about disrespect and intimate partner violence and to promote conversations among young people about healthy relationship behaviour. Users can share content, save content to their phone and learn how to recognise and address controlling/abusive behaviour and gender inequality, as well as support others who are experiencing violence.

Download the iMatter App on [Google Play](#) or [iTunes](#)
